Publication – “Ontario Soybean Field Guide”

This publication is the result of a cooperative effort between the Iowa Soybean Association and the College of Agriculture and Life Sciences and Extension at Iowa State University in conjunction with the Ontario Ministry of Agriculture, Food and Rural Affairs, University of Guelph Ridgetown Campus and the Grain Farmers of Ontario with funding for the SMART Soybean project (Strategic Management Adding Revenue Today) through Agriculture and Agri-Food Canada’s CanAdvance Program which is administered by the Agricultural Adaptation Council in Guelph.

5,000 copies of this 77-page pocket-sized guide (3 ¾" x 6") were prepared for soybean producers and soybean agronomists to assist in the identification of soybean diseases, insects, nutrient problems, herbicide injury, etc for Ontario. Colour photos and basic information on soybean management issues are presented in a durable, weather-safe format.

If you would like a copy of the brochure please call the Ridgetown OMAFRA Resource Centre at 519-674-1690.
